PROFESSIONAL SUMMARY

I received training on "Frontend development" technologies (html, css, js and React.js). I am trying to improve myself and my projects.

WORK EXPERIENCES

Laboratory Chief Assistant

Zemar Soil Researching | 2018 May - 2020 Jun

- Filling tracking and field control
- Supervising of the Laboratory testing jobs
- Keeping in touch with infrastructure team at necessary locations

Courses & Internship

Bilge Adam Academy | 2022 May - 2022 Dec

- FRONTEND DEVELOPMENT & REACT JS
- HTML, CSS and JavaScript and React.Js were used for projects with responsive design.
- Teamwork was carried out on in-class and extra-curricular projects with student teams of 3-4 teamplayer.
- Received mentorship from senior developers. Their feedback was applied consistently.
- Tracked user stories/bugs in GitHub projects.
- The spelling rules of the software languages used in the projects were complied with.
- In e-commerce projects, product listing, product filtering, product creation and front-end coding of the API side were developed.
