I received training on "Frontend development" technologies (html, css, js wordpress and React.js). I am trying to improve myself and my projects.

SKILLS

Html5 Css3	Javascript React.js	Redux Git	Taiwind Next.js	Bootsrap

WORK EXPERIENCE

Project Manager & Frontend Developer, LLC Soft   **Oct 2023 - Present**

- In line with the demands from customers, I took on coding tasks in Wordpress & React projects by distributing tasks to my teammates. I completed 20+ wordpress projects that I did here. These projects here improved me in ui-ux. In React projects, I took part in the coding team of Jet Grafik and Workgency B2B projects.

Junior Frontend Developer, Kartega Innovative   **6 months - Seb 2022- Feb 2023**

- My first job experience was to create the www.dilekiste.com website using React. My task was to write the style codes in the given components. Here, a site was created for customer needs for wholesale purchases. The project also had a mobile app.

Assistant Instructor, Bilge Adam Academy   **11 months - jul 2022 - Feb 2023**

- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices. Produced websites compatible with multiple browsers. Designed and updated layouts to meet usability and performance requirements. Below comments are made by Trainer Murat Akdağ upon my requeston 25.07.2023.

  "Akın thinks on the cutting edge of javascript, react.js, redux. He assumed a leadership role in BilgeAdam Academy, inspiring and motivating his colleagues. He is not only a reliable and forward thinking software engineer but also an inspiring team player. Ambitious and independent expert. He denotes a lot of analytical capability and willingness for both his personal & professional development. Definitely someone I'd want to have on my team. Great to be part of Akın's trusted network! Always a pleasure to be professionally associated with a consummate professional like him! Highly recommend to all others. Please let me know if you have any further questions regarding the above information"

Frontend Developer React.Js , Bilge Adam Academy

- HTML, CSS and JavaScript and React.Js were used for projects with responsive design.
- Music & Movie Playlist with Redux Toolkit
- Some of the key features of this app:
- Adding and removing songs and movies from playlists Generating random songs and movies to add to playlists Clearing all the playlists at once.
- Displaying the current contents of each playlist in a list format allowing users to interact with the app using buttons and other UI elements.
- Overall, this app provides a simple and intuitive interface for managing playlists, and could be useful for anyone who wants to organize their favorite songs and movies into separate lists.
- GitHub User Search
- Integration of GitHub user public API
- Execution of API queries using JavaScript Fetch API
- Quote Generator
